

Dr John Cooper
BSc MB BS FRCP (UK) MD

Consultant Cardiologist

Dr John Cooper trained at UCL and Westminster hospital, graduating with a first class BSc in pharmacology and qualifying in medicine in 1984. After working in London, Dr Cooper trained in general medicine in Leicester and Cardiff before entering into specialty training in cardiology as a registrar at UCL and Middlesex hospitals, and a senior registrar at Glasgow Royal Infirmary.

Dr Cooper has been in post at Bedford Hospital since 1996 during which time he has also been performing coronary intervention at Papworth Hospital. He has been instrumental in the development of local services which now includes cardiac pacing, coronary angiography and more recently, coronary intervention.

Dr Cooper has a broad experience in general cardiology and general medicine. He is passionate about delivering high quality personal care to his patients.
