

Dr Jane Hurst
MB, ChB, FRCA
Consultant Anaesthetist

Dr Jane Hurst graduated from Liverpool University in 1974, MB., ChB., and then undertook further training in Dorset and the West Midlands. She gained her FRCA qualification in 1978 and was employed by Bedford Hospital as a consultant anaesthetist from December 1982.

Dr Hurst works mostly in critical care complex and theatres. Her special interests include critical care and tracheostomy management and she is the clinical lead for organ donation at the Trust. She is closely involved with the courses run by the Medical Institute at Bedford Hospital especially EPLS (European paediatric life support) and CCrisp (care of the critically ill surgical patient)
