

Fabric Supports

Fabric abdominal or spinal support and spinal braces are provided for stabilising the spine and/or reducing pain due to general chronic low back pain or trauma. These are usually made to measure but could be ready-made if appropriate.

Please note: There is a statutory prescription charge payable for this type of support

Entitlement

Children and adults are usually provided with two.

Repair and Replacement

These are repaired or replaced as necessary. Replacement is given when the support is no longer economical for repair. It must be taken to the orthotic appointment.
